If the production companies themselves cannot participate in the Exhibition, their specific or general authorised dealers, agents or representatives may be admitted.

b) The Trade Associations, the Public Bodies and the Organisations that institutionally carry out promotion, study, information and publicisation in the industries concerned with the Exhibition.

The Organiser reserves the right to admit to the exhibition also Companies, Bodies and Organisations not stipulated in the previous paragraphs, as well as exclude from the exhibition certain services, products or samples, and to forbid the presentation of products, samples or services of the same company on more than one stand of the same merchandise sector.

Admission to the exhibition will not be permitted to those who are debtors in any way to ModenaFiere or to third parties in competition with the organisation.

The Exhibitor is obliged to indicate, on the Participation Application form, the goods which will be shown at the Exhibition. The exhibiting and sale of goods not indicated on the Participation Application form will result in closure of the stand by the Organiser.

In the case of collective participation, the applicant may not accommodate Exhibitors to which the Organiser has already communicated their non-compliance with requirements or obligations, also for other exhibitions, and failing this will be duty bound to the Organiser to ensure correct execution of the abovementioned requirements or obligations.

It is the right of the Organiser to decide on the admission or non-admission of exhibitors. This decision is taken based on/in consideration of the space available and the entitlements the Exhibitors have, of qualifications and every other circumstance deemed important in order to guarantee the good outcome of the Exhibition.

The decision is however free and discretionary.

The Organiser is obliged to give a reason for excluding an applicant from participating in an exhibition should the Exhibitor make a formal petition for it within 30 days of the closure of the Exhibition. The Applicant is obliged to provide all other documentation which may be requested in order to decide on the acceptance of the application and to ascertain – at any time – the respect he/she has for the Conditions for Participation in the Exhibition.

2.B) Participation in the Exhibition - Payments

Presentation of the Participation Application Form, which constitutes an irrevocable proposal for the applicant, implies acceptance of the Technical Regulations and Conditions of Participation in the Exhibition and the Safety Regulations and every other rule relating to the organisation and functioning of the Exhibition and the Fair District with particular reference to the Covid 19 protocol.

All the exclusive and general Dealers, Agents and Representatives must attach to their Participation Application form the list of the case that they represent and whose products they intend to exhibit.

The applications must be sent to the Organiser by and no later than the 14/02/2025.

The requests for admission must be signed by the legal representative of the company in every part and will be accepted only if complete with Privacy Form and Financial Flow Tracking form, which constitute an integral part of it.

The participation fees are indicated on the Participation Application Form.

2.C) Payment

The payment of the amounts owed for participation in the Exhibition must be made according to the deadlines and methods specified on the Application Form and however by and no later than the **14/02/2025** and in any case before the Exhibition first opens to the public.

If the Application Form is accepted, the Organiser will send a formal notice of acceptance. Subsequently it will also send a deposit invoice which must be paid within 30 days of its issue date but no later than the **14/02/2025**.

The invoices will be sent in pdf via e-mail to the e-mail address given for sending invoices to which it is obligatory to fill in.

If the payment is not duly made, the Organiser can consider the contract terminated by default of the participant, without the need for a Judge's ruling or warning.

In this case, the Organiser will formally communicate to the subject concerned, and as well as being released from any commitment and being able to make the stand available and allocate it to other applicants, will have the right to payment in full as a penalty of the participation fee, as well as every other contractual amount, minus any sum already received for these fees, and with the exception of the right to compensation for any further damage.

The "exit coupon", if there is one, even though it cannot be released to the Exhibitors who have not paid all debts direct or indirect, does not constitute acquittal of payment for the sums owed for participation in the Exhibition, and will be valid only for the vehicle/vehicles indicated on it.

You may decide to renounce all or part of the equipment of pre-fitted stands by notifying ECOD Srl by email - tecnico@imeat.it - by 14/02/2025: no offsetting or price reduction is allowed.

2.D) Allocation of the Stands

The allocation of the stands is the exclusive and discretionary responsibility of the Organiser. Any indications or special requests on the part of the Exhibitor are purely indicative, they may not constrain or effect the Participation Application and thus are to be considered as not confirmed.

Furthermore, the Organiser reserves the right to move, reduce the stand already allocated, or transfer it to another exhibiting area, without any right of the participant to indemnity or compensation of any sort. The Organiser is however obliged to communicate this to the Exhibitor.

Any total or partial transfer, even free, of the exhibiting area allocated is not permitted. In the case of substantiated breach, the Organiser may remove the goods introduced and displayed illicitly, at the risk and expense of the proprietor of the pitch.

2.D bis) Co-exhibitor

Co-exhibitor admission is subject both to payment by the Exhibitor of the fee indicated in its Application to Participate in the Fair and to the Organiser's approval. It can be denied at the Organiser's discretion. The Exhibitor must fill in the appropriate annex to its application to participate in the fair so as to have the Co-exhibitor's admission approved. Any company or person exhibiting or distributing advertising material at the stand or taking orders without a corresponding co-exhibition contract is classified as an Exhibitor and is required to pay the fee for fair participation. The Exhibitor is not released from its contractual obligations towards the Organiser. The Exhibitor is accountable, in all respects, for the acts of the Co-exhibitor, which must comply in all respects with the General Conditions of Participation and any other regulations in force on Exhibition participation. In case of non-compliance with these regulations, the Organiser may charge the Exhibitor for all damages resulting from the acts of the Co-Exhibitor.

2.E) Right of withdrawal

The Participant who, for legitimate proven impossibilities, is not able to take part in the Exhibition, may withdraw from the contract by documenting this impediment and communicating this fact to the Organiser by registered letter with receipt A.R. at least 60 days before the opening date of the Exhibition.

In any case, it is understood that the Organiser may keep the deposit and request any compensation for further damage.

If on the other hand this fact is communicated to the Organiser less than 60 days before the opening date of the Exhibition, the Exhibitor will be obliged to pay in full the total amount indicated in the application form, except the right of the Organiser to be reimbursed for any direct or indirect damage.

The Organiser may however make the stand available, also allocating it to other Exhibitors.

If the communication of withdrawal is not duly given and the Exhibitor does not prepare his/her own stand, he/she will be deemed to be in breach of contract to all intents and purposes and will be obliged, as well as payment of the participation fee, also to reimburse all direct and indirect damages incurred by the Organiser. Also in this case, the Organiser may however make the stand available and allocate it to other Exhibitors.

The Organiser may withdraw at his own discretion from the participation contract up to two weeks before the opening date of the Exhibition and, for reasons pertaining to the organisation of the exhibition and all its regular running, up to the day of opening. In this case, the Organiser will not be obliged to indemnity or compensation of any kind, but must reimburse any sum paid up to that point.

3) POSTPONEMENT, REDUCTION, SUPPRESSION OF THE EXHIBITION

It is the discretionary and unquestionable right of the Organiser to make alterations to the date of the Exhibition, without thus giving the right to the Exhibitor to withdraw or however terminate the contract and free themselves from any commitment undertaken. Furthermore, the Organiser may reduce the Exhibition, or rather suppress it completely or in some areas of it, without thus being obliged to pay any indemnity, penalty or damages of any sort. In these cases, the Organiser must communicate all changes made in writing (fax, or registered letter or e-mail) to be forwarded at least 15 days before the programmed opening date of the Exhibition.

3 bis) FORCE MAJEURE

Force majeure is an event or circumstance ("Event of Force Majeure") that prevents the performance of one or more contractual obligations, if and to the extent that it is proven:

- a) that the impediment is beyond the affected party's reasonable control; and
- b) that it could not reasonably have been foreseen at the time the contract was concluded; and
- c) that the effects of the impediment could not reasonably have been avoided or overcome.

The conditions referred to in points (a) and (b) shall be considered fulfilled, unless proven otherwise, in case of the following events: war (whether or not declared), invasions, acts of foreign enemies, extensive military mobilization on national or international territory; civil wars, riots, rebellions and/or revolutions, insurrections, acts of terrorism, sabotage or piracy; embargoes; obligation to comply with any law or governmental order, expropriation, requisition, nationalization; plague, epidemics, natural disasters or extreme natural events in general; explosions, fires, destruction of equipment, prolonged interruption of transport, telecommunications, information systems or power; boycotts, strikes and lockouts, occupation of premises.

In case of an Event of Force Majeure, Ecod Srl will be exempted from complying with its contractual obligations and from any liability for damages or any remedy for breach of contract, starting from the moment when the impediment prevents its performance, provided that notice is given to the other party without delay. If such notice is not promptly given, the exemption will take effect from the moment such notice reaches the other party. The other party may suspend performance of its obligations from the date of notice. If the Fair must be postponed due to an Event of Force Majeure, the Organiser will retain the sums already received (i.e. the registration fee and any other down payments), which may be used by the Exhibitor - without any guarantee as to the unchangeability of fees - to participate in the event when

the Fair is held. If the event needs to be cancelled due to an Event of Force Majeure, the Organiser, after fulfilling its obligations to third parties and covering the organisation costs incurred for any reason, will distribute the remaining amount among the exhibitors in proportion to the payments made by each of them, without these being entitled, for any reason or in any capacity, to claim compensation against Ecod Srl.

In case of an Event of Force Majeure, the Exhibitor will be exempted from complying with its contractual obligations and from any liability for damages or any remedy for breach of contract, starting from the moment when the impediment prevents its performance, provided that duly documented notice is given to the Organiser without delay. If such notice is not promptly given, the exemption will take effect from the moment such notice reaches the other party, who may suspend performance of its obligations from the date of notice. If the Exhibitor is unable to attend the Event due to an Event of Force Majeure, Ecod Srl will retain the sums already received (i.e. the registration fee and any other down payments), which may be used by the Exhibitor - without any guarantee as to the unchangeability of fees - to participate in future editions of the event.

For the sake of clarity, it is specified that, in case of an Event of Force Majeure, the deadlines for notice provided for in Article 3 will not apply.

In order to speed up its service to the Exhibitors, the internal handler, supplier of ModenaFiere, will ensure the provision of trolleys and lift trucks, to be booked in advance using the appropriate form.

The organiser may define, also under the ruling of safety in the workplace regulations, particular access criteria to the Fair District during the stand preparation, as well as limiting the access of vehicles and/or levying charges if vehicles should be parked outside spaces and/or times established.

During the opening hours of the pavilions, the Exhibitor must guard their own stand

directly or via their own personnel. The Exhibitor is obliged to man the exhibition stand, with their own staff throughout the whole opening period of the Exhibition. The Exhibitor is the sole guardian, for the whole period of the Exhibition (including the period of stand preparation and clearing) of all the materials, goods and furnishings present in the exhibition post.

As custodian of the exhibition post the Exhibitor undertakes to relieve ModenaFiere substantially and procedurally from any responsibility and keep it unblemished by every loss, damage, responsibility, cost or expense, including legal expenses, arising from use of the stand and the exhibiting space allocated.

The Organiser, whilst providing for the entire duration of the Exhibition and all the days assigned for the preparation and clearing of the stands, a night and day surveillance service within the Fair District, is exonerated from any and every responsibility with regard to theft and/or damage which may occur (with regard) to the Exhibitor.

The aforesaid insurance covers, included in the participation fee, are governed by the conditions and limitations that the Exhibitor may request from the Event Organiser, and which will be reported in the documentation relating to the Event itself. These covers do not exclude the liability of the Exhibitor for all risks that, according to the Exhibitor's own judgement, were not covered or exceeded the above coverage limits. The Exhibitor itself shall provide for appropriate supplementary covers.

The Insurance cover indicated above, included in the Participation Fee, is governed by the conditions and limitations that the Exhibitor may request from the Organiser of the Exhibition, and which will be shown in the documentation relating to the Exhibition itself. This cover does not exclude the responsibility the Exhibitor has for all the risks which according to the independent evaluation of the Exhibitor were not covered or which exceed the limits of the cover shown above.

The Exhibitor themselves must see to the appropriate comprehensive cover.

In case of theft, the Exhibitor must make sure the insurers receive the relevant report made to the Public Authorities, within seven days of the closing of the Exhibition; failure to respect these deadlines may lead to the loss of right to any indemnity.

The Insurer will also handle the management of accidents or loss and the settlement procedures at the end of the Exhibition according to the conditions stipulated in the aforementioned form.

In any case the Exhibitor shall undertake to insert in the integral cover the waiver of the insurer to any breach towards the Exhibitors and the Organiser, and failing this should relieve them from every action that may be taken against them.

In acknowledgement of the above, the Exhibitor, however, (for himself/herself and for those working with or for him/her) expressly exonerates the Organiser from every responsibility for losses or damage which for whatever reason may happen in the exhibiting space allocated to them, during the Exhibition or during the preparation or dismantling of the stand, and for as long as they are there, assume all responsibility for any damage caused also to third parties by the management of the exhibiting space or anything entering that space, and not covered in the terms and methods indicated above or activated by the Exhibitor himself.

The Organiser declines every responsibility for consequential damage, damage to image, loss of sales etc. Also for direct damage, the Exhibitor accepts that the Organiser limits his/her responsibility to the limits and maximum liabilities of the insurance cover as stated above.

The Exhibitor accepts these limitations of responsibility.

5) STAND OUTFITTING, PROHIBITIONS AND OBLIGATIONS

5.A) Definition of type of stand outfitting and approval procedures

The stand installations, irrespective of their surface area, are classified as:

- STANDARD installations
- NON-STANDARD installations

Installations that have even only one of the following characteristics are considered NON-STANDARD:

- a) installation height exceeding 3.00 metres;
- b) use, for the realisation of the installation, of metal trusses, both resting on the ground and hanging, developing for more than 32.00 meters overall (summing their horizontal and vertical elements) and/or with a free span exceeding 8.00 meters, even where the metal truss rests on the ground and is more than 3.50 meter high;
- c) mezzanine with rooms on the first floor, even if closed to the public;
- d) horizontal structures in metal or other material with a free span exceeding 4.50 meters;
- e) structural anchorage systems;

Considering that the Fair District of "ModenaFiere" have obtained the usability of the exhibition spaces according to a basic scheme of traditional stand preparation, or rather with parameters defined as STANDARD, it is obligatory for the Exhibitor who in-

tends to propose stand preparation having even only one of the characteristics listed previously, to submit his project for non-standard stand preparation to the Organiser in sufficient time to receive approval.

For the non-standard stand preparations the static test is obligatory, which must be carried out by the authorised technician.

ModenaFiere reserves the right not to allow the setting up of non-standard stands if they have not received prior approval from the Technical Office of ModenaFiere.

In any case, ModenaFiere has the right to examine the projects for the stands which in terms of importance, size and potential risk are outside the standard parameters of traditional stand preparation; the Exhibitor is obliged to provide the technical papers and the names of the technicians responsible for the structural and preparation part as well as for the systems. An identical obligation exists for the stands put up in the external areas.

It is the right of the Organiser to request the intervention of the Surveillance Commission for Public Performance venues, charging any resulting costs to the Exhibitor.

5.B) Outfitting of the stands

The Exhibitor must contain the outfitting of his stand to the area specifically allocated to him, identifiable by dividing walls, painted lines, or adhesive tape, where other references do not exist. The stand outfitting must not exceed the ideal level, passing through the central strip of tiles located at the edges of the stand.

Inside the pavilions the stands must not exceed the standard height standard of 2m 50. In order to take into account the thicknesses due to raised flooring, lighting fixtures, supports for lighting fixtures also a traliccio, a further margin of 50 cm will be allowed on the height limit specified above, thus taking it to a maximum height of 3m, provided that the structures whose sides look onto the adjoining stands are perfectly finished and painted in a single tone neutral colour. In the rooms which look out onto the Galleria

Servizi the stand preparations must receive prior authorisation from the Technical Office of ModenaFiere. The stand outfittings of the Galleria Servizi (service passageway) must have practically zero fire risk. The glass walls in direct contact with the public must be in compliance with the current regulations and the norme UNI.

It is strictly forbidden to construct accessible raised platforms which exceed a height of 0,70 metres from the floor. Every responsibility regarding the statics and the compliance of stand materials with the fire (anti-fire) regulations currently in force, is the exclusive responsibility of the Exhibitor, who expressly exonerates ModenaFiere for any damage arising from faulty planning and construction, including also the dimensions calculated from the detailed drawings of the occupied surfaces.

Any work which implies changes to the state of the fixtures and fittings and furniture of ModenaFiere (reinforcements, modifications, digging, holes made in the fixtures, in the walls, to the structures, in the columns, in the floors), may be carried out only with the prior written authorisation from ModenaFiere, at the cost of and under the responsibility of the participants. This responsibility remains chargeable to the exhibitor for the whole duration of the Exhibition up to the time of returning the stand or the area to ModenaFiere. Before the start of the work, the participant is obliged to pay to the Organiser the total amount of the cost to restore the stand/area to its original state, which the Organiser will then see to directly.

5.C) Prohibitions and Obligations

In particular it is forbidden for the Exhibitors to:

- apply loads or lean material against the pavilion structures, the walls, the lighting pilings, etc;
- attach or hang on the abovementioned components: posters, cables, panels, banners, stickers;

Keep ModenaFiere exempt from any requests for compensation received from third parties.

The Exhibitor must inform its own staff and any companies working for it in the Fair District of the requirements and the prohibitions of these Regulations and the Safety Regulations concerning the general conditions for participation in the Exhibition.

Failure to observe these regulations and those relevant regulations also in the general conditions for participation gives ModenaFiere the right to take precautionary measures against the company, for example, with fire-extinguisher incorrectly positioned, which could mean, should supplementary measures to the global safety conditions be adopted, it would be charged with the corresponding costs which are calculated in advance at no less than € 300,00/form plus VAT or to court order the partial or total dismantling of the stand and the declaration of non usability of the stand itself.

The Exhibitors are permitted to carry out retail sales with immediate, on-the-spot delivery of the goods and items on display and display the relevant prices.

It is specifically forbidden for exhibitors to:

- perform any kind of show or entertainment, of any nature whatsoever, even if limited within the stand or aimed at presenting the products without the prior written consent of the Organiser; it is the exclusive responsibility of the Exhibitor to apply for and obtain any authorisations from the competent bodies (health or public safety authorities, etc. .); and to comply with any copyrights (authors and publishers) and related rights (producers and artists), for the above initiatives, if and as required;
- transfer or exchange even a part of the stand;
- exhibit products contrary to the merchandise category of the stand, which appears on the Application Form;
- use any form of publicity outside their own stand within the Fair District. The distribution of advertising material is allowed only within the own exhibition area;

- exhibit advertising or samples, even simply indicative, on behalf of companies not listed on the Application form and not represented.

The technical bans, issued for reasons of safety to people and objects, as well as with the aim of preventing tampering with the furniture fixtures and fittings of the Fair District and the relevant requirements, contained in the Technical Regulations and Participation Conditions and Safety Regulations, are understood to be part of these General Contract Conditions, and the Exhibitor shall undertake to follow them closely. Any deviations may be submitted, exclusively in writing, to the Organiser.

The Exhibitor is obliged to:

- regulate himself and third parties working for him in the Fair District with the regulations regarding social security, accidents and work in general;
- follow the current fiscal regulations regarding commercial activity.

Should even one of the abovementioned prohibitions not be respected, that is, those mentioned in this article, the Organiser may apply sanctions and/or rescind the Contract of Participation in the Exhibition without the need for a judge's ruling, but simply via any form of written communication presented to the Exhibitor at his/her stand. This implies immediate closure of the stand and withdrawal of the access permits to the Fair District, without detriment to the amounts due by the Exhibitor.
